To: **Project Manager,**  
Enhancing Economic Capacity of Former  
TDPS in Khyber (Funded by UNIOM)  
Implemented by HUIRA Village Support Organization

Dear Sir / Madam,

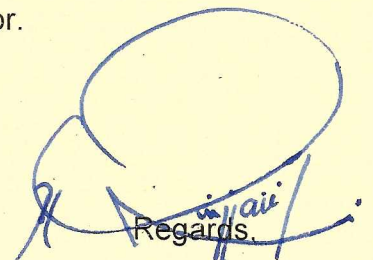

السلام عليكم

I am pleased to express my gratitude over the colossal work put in by your organization in developmental interventions in recently rehabilitated areas of Upper Barra and Lower Tirah including villages Mehraban Killi, Zarmanza, Soakh, Chinari, Jabar Mela, Nagharra, Nakay Killi and Jarrobi Killi. These efforts have considerably changed the outlook of area and enormously facilitated the locals in reclamation/ irrigation of lands and sowing / cultivation of crops. During the process of rehabilitation, three main water channels which will irrigate approximately 100 acres of land and serve domestic water needs of locals, have been constructed in following areas of Tirah Valley:-

- Mehraban Killi Water Channel.
- Soakh Water Channel.
- Chinari Water Channel.

**27 Brigade** also appreciate the untiring effort of **HUIRA Village Support Organization** for preparing 110 acres of land in above mentioned villages for wheat / potato crops, distribution of potato seeds and Walnut plants among local farmers. Besides these, distribution of almost 160 x Agricultural / Value Addition Tool Kits were well received which will definitely enhance the capacity of locals.

Indeed your organization has done a tremendous job and has laid a foundation stone for future work. 27 Brigade expects continuity of more projects for facilitation and capacity building of residents of Tirah Valley with same zeal and fervor.

  
Regards.
